## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### ***1 INFORMATION CONCERNING THE GROUP***

---

The Sanef group holds two concessions granted by the French government, through which it manages the construction and operation of 1,785 kilometers of toll roads, engineering structures and facilities. Of this total, Sanef manages 1,406 kilometers and Sapn manages 379 km. As of December 31, 2014 and December 31, 2013, the group's network in service consisted of 1,773 kilometers.

Since signing an agreement in 2010 with the French Government to make investments for sustainable development, the Sanef and Sapn concessions were set to run until December 31, 2029.

The French Government entered into a highway stimulus plan with the major highway concession-holders totaling €3.2 billion for the whole sector in 2015. This stimulus plan comes as part of the negotiations completed in April 2015 with the signing of a framework agreement between the French Government and the Vinci, APRR-AREA and Sanef (plus Sapn) groups.

The agreement establishes the shared aim of the French Government and the highway concession-holders to continue their contractual arrangement far into the future and to develop it based on the following principles:

1. Expanded investment in infrastructure:
  - i) Direct investments through the Stimulus Plan:
    - a) For Sanef, the Stimulus Plan represents an investment program of about €330 million and a two-year extension of the concession.
    - b) For Sapn, the Stimulus Plan represents an investment program of €260 million and a three year eight month extension of the concession.
  - ii) Indirect investments through:
    - a) the concessionaires' paying the AFITF an Extraordinary Voluntary Contribution (French acronym CVE). The CVE, in the amount of €60 million per year, will be paid by all the highway concessionaires party to the agreement until the end of each company's concession. The Sanef (Sanef and Sapn) Group's share represents 17% of the total CVE.
    - b) The creation by Vinci, APRR and the Sanef shareholders of a €200 million fund for the ecological modernization of transportation (French acronym FMET). The contribution to this made by Sanef Group shareholders was €50 million.
2. Stabilizing the contractual relationship with Sanef and Sapn and the economic balance of the concessions:
  - i) Inserting a so-called fiscal stability provision by amending Article 32
  - ii) Implementation of a measure to cap the profitability of concessions, made by amending Article 36 of the Sanef and Sapn concession agreements.
3. Compensation for the 2013 increase in the State fee for use of public land (*redevance domaniale*) by an additional increase in tolls from 2016 through 2018 and compensation for the toll freeze in 2015 by an additional increase in tolls from 2019 through 2023.

4. Adding to the company sustainability policies of the concessionaires, fostering carpooling, environmentally friendly vehicles and helping young people and/or students.
5. Creating an independent regulatory authority for the highway sector. On October 15, 2015, ARAF became ARAFER (French acronym for rail and road operators regulatory authority) and took over the regulation of the highway sector (i.e. consultation on plans to amend a concession or any other contract if it has an impact on toll rates or the time period of the concession.)

Decree no. 2015-1046 of August 21, 2015, approving the riders to the agreements made between the French Government and Sanef was published on August 23, 2015 in the *Journal Officiel*.

As a result of these riders, the Sanef concession contracts now expire on December 31, 2031 and the Sapn contracts on August 31, 2033.

The primary concession arrangements are similar for both companies, and the attached specifications constitute the fundamental instruments establishing the relationships between the French government as grantor and both companies. In particular, these arrangements set out the terms and conditions for the construction and operation of the toll roads, the applicable financial provisions, the duration of the concession and the terms under which the installations are to be recovered at the end of the concession.

The provisions most likely to influence the outlook of the Group's operations include:

- the obligation to maintain all engineering structures in a good state of repair and to ensure the continuity of traffic circulation under good safety conditions and in good working order;
- the provisions setting toll rates and the conditions for changes thereto;
- the clauses providing for applicable provisions in the event of regulatory changes of a technical or tax nature applicable to toll road operators. If such a change was liable to seriously compromise the financial equilibrium of the concessions, the French government and the concession operators would agree the compensation to be envisaged by mutual agreement;
- the provisions liable to guarantee that all of the engineering structures of the concession have been placed in a proper state of repair on the date the contract expires;
- the conditions under which the assets are to be turned back over to the French government at the end of concession and the restrictions placed upon the assets;
- the ability of the French government to buy out the concession arrangements in the general interest.

In the context of the privatization of the Company, the French government announced its desire to modify the concession arrangements awarded to Sanef via amendments to the agreements that were approved by the boards of directors of Sanef and Sapn on April 27 and May 4, 2006, respectively.

Lastly, long-term program agreements (*contrats d'entreprise*) were signed by Sanef Group companies and the French government, defining capital expenditure programs and price policies. The long-term program agreement between Sanef and the French government for the period - 2010-2014 – ended in 2015, while Sapn's agreement is still being negotiated.

Sanef's registered office is located at 30 boulevard Gallieni – 92130 Issy-les-Moulineaux – France.

## **2 ACCOUNTING POLICIES**

---

### *2.1 Applicable accounting principles*

Sanef's 2015 consolidated financial statements have been prepared in accordance with the international accounting standards published by the International Accounting Standards Board (IASB), as approved by the European Union on December 31, 2015. The texts published by the IASB and not adopted by the EU are not applicable to the Group.

The following standards and interpretations are applicable with effect from 2015:

- Annual IFRS improvement process (2011-2013 cycle) of December 2013: the amendments included in this annual IFRS improvement process are applicable to the fiscal years beginning on January 1, 2015 and pertain to four standards. These amendments did not have a material impact on the group's consolidated financial statements.
- The Sanef Group made a change in accounting policy - described in Note 2.3 - concerning the application of IFRIC 21 to the accounting treatment of taxes levied by a public authority ("levies") with an application date of January 1, 2015. The interpretation establishes the principle that a tax is recognized on the date of the obligating event, the date on which the entity is required to pay such tax.

The group has not elected for early adoption in its interim financial statements of any standards or interpretations whose application is not mandatory in 2015 (their potential impact on the group's financial statements is currently being reviewed).

Estimates and judgments:

The preparation of the consolidated financial statements required Management to make certain judgments and to include certain estimates and assumptions. Those estimates and their underlying assumptions were based on past experience and other factors deemed reasonable under the circumstances.

They served as the basis for the judgments that were made, as the information required to determine the carrying amounts of certain assets and liabilities could not be obtained directly from other sources. Actual values may differ from these estimates.

Significant estimates made by the Group relate to the valuation of concession intangible assets in view of a potential impairment, depreciation periods for replaceable assets, the recoverable value of goodwill, provisions (particularly provisions for infrastructure maintenance), and impairment of receivables.

## 2.2 *Approval of the consolidated financial statements*

The Sanef Group's consolidated financial statements were approved by its Chairman on February 16, 2016. The Group's shareholders will approve the financial statements at the meeting scheduled for April 19, 2016.

## 2.3 *Change in accounting policy: Levies*

### 2.3.1 *Presentation of change in accounting policy*

IFRIC 21 *Levies*, adopted by the European Commission in June 2014, is applied by the HIT Group beginning in fiscal year 2015. This change in policy is applied retrospectively. The opening balance sheet at January 1, 2015 has been restated as if IFRIC 21 had always been in effect. This change, however, had no effect on the 2014 income statement.

IFRIC 21 applies to levies, other than income tax, due by an entity to a public authority pursuant to legislation which fall within the scope of IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*.

IAS 37 sets out the criteria for recognition of a liability, particularly the need to have a present obligation resulting from a past event. The event that triggers the obligation to pay a levy results from the exercise of the activity that gives rise to the payment of this levy as provided by legislation.

### 2.3.2 *Impacts of the change of accounting policy following the application of IFRIC 21*

#### 2.3.2.1 *Impacts on the statement of financial position*

##### - Assets

The public concession fee for the six months of N+1 paid in July of N was classified as prepaid expenses in the consolidated financial statements and is recognized in full in N with the application of IFRIC 21 and in its deferred taxes.

##### - Liabilities

The HIT Group records the impact of this recognition in its consolidated reserves (effect of the public concession fee net of tax).

2.3.2.2. *Statements of financial position and statements of comprehensive income restated for the application of IFRIC 21*

Consolidated statements of financial position

#### 2.4 *Consolidation method*

The consolidated financial statements include the financial statements of Sanef, its controlled subsidiaries and its associates, established at the end of each reporting period. The financial statements of subsidiaries and associates are prepared for the same period as those of the parent company.

Subsidiaries are fully consolidated when they are controlled by the Group. Such control is established when the Group has the direct or indirect power to make decisions relating to operations and finance in order to obtain full advantages from the subsidiary.

Non-controlling interests are presented on the statement of financial position in a separate category from equity. The share of non-controlling interests in income is presented on a separate line of the statement of comprehensive income.

Companies over which the Group exercises notable influence (“associates”) are consolidated using the equity method. Notable influence is presumed when the Group holds more than 20% of a company’s shares. If this criterion is not met, other criteria – such as whether the Group is represented on the company’s Board of Directors – are considered when deciding whether or not to apply the equity method. The subsidiaries under joint control are also consolidated by the equity method.

Companies that have been newly acquired are consolidated as from the effective date control is acquired. Their assets and liabilities are valued at that date in accordance with the acquisition method used.

#### 2.5 *Translation of foreign currencies*

In Group companies, transactions in foreign currencies are translated using the exchange rate in effect at the time they occur. Money market assets and liabilities denominated in foreign currencies are translated at the closing exchange rate for the period. Any translation gains and losses are recognized in the statement of comprehensive income as other financial income and expense.

The subsidiaries and equity investments located outside of the eurozone use their local currency as operating currency and this currency is used for the majority of their transactions. Their statements of financial position are translated using the exchange rate in effect at the end of the reporting period, while their statements of comprehensive income are translated using the average annual exchange rate. Any gains or losses that may result from the translation of the financial statements of these subsidiaries and affiliates are recognized in consolidated equity under “Cumulative translation adjustments.” Goodwill on these subsidiaries is recognized in the local functional currency.

#### 2.6 *Segment data*

The Group is not obliged to provide segment data, as defined in IFRS 8. However, some indicators presenting the concessions separately from other activities (basically telematics) are presented in note 3.25.

#### 2.7 *Goodwill*

Goodwill represents the difference between the acquisition price (including ancillary costs incurred before the application of the revised IFRS 3) of the shares of companies that are controlled by the Group and the Group’s share in the fair value of their net assets at the date control is acquired. It corresponds to non-identifiable items within the acquired companies. In accordance with IFRS 3 *Business Combinations*, goodwill is not amortized.

The Group has a period of 12 months from the date of acquisition to finalize the accounting for any business combinations.

Goodwill is tested for impairment as soon as there is an indication of a loss of value, and at least once per year. For this test, goodwill is allocated at the cash-generating unit level, representing the smallest groups of assets generating autonomous cash flows, compared to the total cash flows of the Group.

## 2.8 *Intangible assets*

### 2.8.1 *Intangible assets held under concession arrangements*

In accordance with IFRIC 12, intangible assets held under concession arrangements represent the contractual right to use the public service infrastructure made available by the government and to charge users of the public service. The infrastructure must be returned to the government without charge at the end of the concession period.

The concession covers all land, engineering structures and facilities required for the construction, maintenance and operation of each toll road or section of toll road, including on- and off-ramps, out-buildings and other facilities used to provide services to toll road users or designed to optimize toll road operations. Assets may include either original infrastructure or complementary investments on toll roads in service.

On initial recognition, the assets are measured based on the fair value of the construction or improvement work performed on the infrastructure with a contra-entry in profit or loss, corresponding to the revenue recognized for the services performed for the government granting the concession. In practice, fair value is equal to the cost of construction work entrusted to third parties and recognized in other external expenses. Intangible assets held under concession arrangements are amortized over the life of the concession (expiring in December 2031 for Sanef and in August 2033 for Sapn, the Group's principal concessions.) at a pace that reflects the consumption of economic benefits expected from the intangible right conceded (on a straight-line basis for mature concessions and based on traffic forecasts for new concessions).

As the arrangement between the French Government and Sanef and Sapn had been made final (see Note 1.1), it was decided to recognize the CVE (extraordinary voluntary contribution) as an intangible asset of the concessions by applying IFRIC 12 (in that the CVE was judged to be a supplemental right to operate the public service infrastructure opened up for concession by the State) with an offsetting provision in liabilities.

### 2.8.2 *Other intangible assets*

The remaining intangible assets consist mainly of software purchased by the Group. They are recognized at cost and are amortized on a straight-line basis over a period of three to five years, depending on their useful life.

Currently, development expenses are mainly charged to the statement of comprehensive income in the period during which they are incurred, as they do not meet the requirements for capitalization

## 2.9 *Property, plant and equipment*

Following the adoption of IFRIC 12, only the replaceable assets that are not controlled by the grantor, such as toll booth equipment, signage, remote transmission and video-surveillance systems, computer equipment, vehicles, machinery and tools are classified as "property, plant and equipment" in the Sanef Group financial statements. They are depreciated on a straight-line basis over their useful life.

Useful lives	Number of years
Equipment and tools	5 to 8 years
Computer hardware	3
Vehicles	5
Facilities	8

## 2.10 Financial instruments

The measurement and recognition of financial assets and liabilities are defined by IAS 39 *Financial Instruments: Recognition and Measurement*.

### 2.10.1 Non-derivative financial assets

When first recorded on the statement of financial position, financial assets are stated at fair value plus transaction costs.

At the date of acquisition, and depending on the purpose of the acquisition, Sanef classifies the financial asset in one of the three accounting categories of financial assets defined by IAS 39. This classification then determines the measurement method applied to the financial asset in future periods: amortized cost or fair value.

Held-to-maturity investments include solely securities with fixed or determinable cash flows and maturities, other than loans and receivables that are purchased with the intention of keeping them until their maturity. These are stated at amortized cost using the effective interest rate method. The net income/loss on held-to-maturity investments will reflect either interest income or impairment. The Group does not currently hold any financial assets belonging to this category.

Loans and receivables are non-derivative financial instruments with fixed or determinable cash flows that are not quoted in a regulated market. These assets are stated at amortized cost using the effective interest rate. This category includes trade receivables, receivables from affiliates, guarantee deposits, financial advances, guarantees and other loans and receivables. Loans and receivables are recognized net of any provisions for impairment due to default risk. Net gains and losses on loans and receivables reflect either interest income or impairment losses.

Available-for-sale assets are stated at fair value, and any change in fair value is recognized directly in equity. This category primarily includes non-consolidated affiliates. These assets are recognized on the statement of financial position at cost, in the absence of an active market. Net gains or losses on available-for-sale assets recognized in income and expenses include dividends, impairment losses and capital gains and losses.

Financial assets at fair value through profit or loss include financial assets and liabilities held for trading which the Group intends, from the date of purchase, to sell or trade within the short term and financial assets that are, on initial recognition, designated as under the fair value option. The Sanef Group is not meant to own and does not own any financial assets held for trading. They are measured at fair value, with changes in fair value recognized through profit or loss in the statement of comprehensive income. Financial assets at fair value through income, designated as such on option, include cash and cash equivalents. The net income or loss on these assets at fair value includes interest income, changes in fair value and capital gains and losses.

Cash includes amounts held in bank current accounts. Cash equivalents are highly liquid investments, maturing in less than three months that do not present any material risk of loss of value. Cash equivalents are included in the category of financial assets at fair value through profit or loss.

La trésorerie comprend les liquidités en comptes courants bancaires. Les équivalents de trésorerie sont des placements très liquides, de maturité inférieure à trois mois, qui ne représentent pas de risque significatif de perte de valeur. Les équivalents de trésorerie ont été désignés dans la catégorie des actifs évalués à la juste valeur par le résultat.

### 2.10.2 *Non-derivative financial liabilities*

Financial liabilities include borrowings, trade accounts payable and other payables related to operations.

With the exception of financial liabilities measured at fair value through profit or loss, loans and other interest-bearing financial liabilities are stated at amortized cost using the effective interest rate method, which includes a yield-to-maturity based amortization of transaction costs directly linked to the issuance of the financial liability. Given their short maturity, trade and other accounts payable are stated at cost, as the amortized cost method using the effective interest rate method provides very similar results.

### 2.10.3 *Derivatives*

Derivative instruments are stated on the statement of financial position at their positive or negative fair value.

Any derivatives put in place in connection with the Group's interest rate management strategy but that do not qualify as hedging instruments, or where the Group has not elected to use hedge accounting, are stated on the statement of financial position at fair value, with changes in fair value through profit or loss.

In cases where these instruments qualify as fair value hedges, changes in fair value are recognized through profit and loss. A change in the fair value that goes against the hedged position, resulting from the risk that is covered, is recognized through profit or loss with a contra entry on the statement of financial position. Given the types of derivative instruments used by the Group, this accounting method has no material impact on the statement of comprehensive income.

Changes in the fair value of derivative instruments that do not qualify as hedging instruments are recognized through profit or loss.

Cash flow hedges are hedges of exposure to fluctuations in cash flows attributable to a particular risk associated with an asset or liability or a planned transaction which would affect reported net income. When derivative instruments qualify as cash flow hedges, any change in the fair value of the effective portion is recognized directly in equity, while any change in the fair value of the ineffective portion is recognized through profit or loss.

### 2.11 *Inventories*

Inventories consist in fuel, and salt. They are stated at weighted average cost and written down to their net realizable value if it is lower.

#### 2.12 *Trade and other accounts receivable*

Trade receivables are initially recognized at fair value and subsequently measured at amortized cost. Trade receivables are recognized in the short term on the basis of their face value, as discounting has no significant impact.

Impairment of trade receivables is recognized when there is objective evidence of the Group's inability to collect all or a portion of the amounts due.

#### 2.13 *Recognition of income taxes*

Taxes include both current income tax expense and deferred taxes.

Tax receivables and payables generated during the year are classified as current assets or liabilities.

Deferred taxes are recognized on all temporary differences between the carrying amount of assets and liabilities and their tax basis. This method consists of calculating deferred taxes using the tax rates expected to apply when the temporary differences reverse, if such tax rates have been enacted. Deferred tax assets are recognized only when it is probable that they will be recovered in the future. Deferred tax assets and liabilities are offset against one another, regardless of when they are expected to reverse, where they concern entities in the tax group. Deferred taxes are not discounted to their present value and are recognized on the statement of financial position as non-current assets and liabilities.

#### 2.14 *Equity*

All costs directly attributable to the capital increases are deducted from additional paid-in capital.

Dividend distributions to Sanef shareholders are recognized as a liability in the financial statements of the Group on the date the dividends are approved by the shareholders.

#### 2.15 *Share-based payment*

Employee compensation in the form of equity instruments is recognized as an expense, with a contra entry to additional paid-in capital. In accordance with IFRS 2 *Share-based Payment*, they are stated at fair value of the instruments granted and the expense is spread over the vesting period.

#### 2.16 *Interest expenses*

The interest expenses generated during the building of conceded engineering structures are included in the building cost of these structures.

#### 2.17 *Current and non-current provisions*

In accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*, a provision is recognized when the Group has an obligation to a third party arising from a past event and it is probable that an outflow of resources will be required to fulfill this obligation.

Non-current provisions mainly correspond to the contractual obligation to maintain or restore the infrastructure (excluding any improvements) as well as the CVE. These provisions are measured based on the Group's best

estimate of the future expenditure required to renew toll road surfaces and maintain engineering structures and are set aside as the infrastructure is used. The provision for the CVE consists of projected future payments. They are discounted using a discount rate representing the time value of money. The impact of discounting non-current provisions is recognized in “Other financial expenses”.

#### 2.18 *Employee defined benefit obligations*

Salaried employees of the Sanef Group receive lump-sum termination benefits which are paid to those employees who are actively employed by the Sanef Group when they retire. Furthermore, employees who retire before 2017 from the subsidiary Sapn are entitled to partial coverage of their healthcare insurance premium contribution.

A supplemental defined benefit retirement plan for the HIT Group’s managers was introduced in 2005.

Prior to retirement, employees are paid defined benefits by the Group in the form of long service awards.

These defined benefit obligations are recorded on the statement of financial position and measured using the projected unit credit method, based on estimated future salaries, which are used to calculate benefits. Expenses recognized during the year include current service costs during the year presented in payroll costs, with the financial cost corresponding to the reversal of the discounting of the actuarial obligation classified as an operating expense. The expected return on the hedge assets is charged against this financial cost.

Actuarial gains and losses resulting from post-employment obligations are recognized in “other comprehensive income”. Actuarial gains and losses on other long-term benefits are recognized immediately through profit or loss.

#### 2.19 *Revenue recognition*

Revenues mainly consist of toll receipts and are recognized as the corresponding services are provided.

In accordance with IFRIC 12, the Sanef Group recognizes in “Revenue” an amount corresponding to the fair value of the construction and improvement work performed for the grantor of the concession, with a contra-entry in intangible assets (see note 2.8). Fair value is equal to the cost of construction work subcontracted to third parties and recognized in “Purchases and external expenses”. In accordance with IAS 11, revenue and construction costs are recognized by reference to the stage of completion of the contract.

Long-term contracts for services provided by the Group are recorded according to IAS 18 *Revenue* based on the stage of completion of the services.

#### 2.20 *Financial income and expenses*

Interest expense includes interest payable on borrowings, calculated using the amortized cost method at the effective interest rate.

The result on hedging derivatives includes changes in fair value and all flows exchanged.

Other financial income and expenses includes revenues from loans and receivables, calculated using the amortized cost method at the effective interest rate, as well as gains on investments of cash and cash equivalents, impairment of financial assets, dividends and foreign exchange gains and losses.

## 2.21 *Measuring the fair value of financial instruments*

The fair value of all financial assets and liabilities is determined at the end of the financial period and is recognized either directly in the financial statements or in the notes to the financial statements. The fair value is the amount for which an asset could be exchanged or for which a liability could be extinguished between informed, consenting parties at arm's length.

Most derivative instruments (swaps, caps, collars, etc.) are traded in over-the-counter markets for which there are no quoted prices. As a result, they are measured on the basis of models commonly used by the players involved to measure such financial instruments, using the market conditions existing at the end of the reporting period.

The following valuation techniques, all classified as level 2 of the categories of fair values under IFRS 7, are used to determine the fair value of derivative instruments:

- Interest rate swaps are measured by discounting all future contractual cash flows;
- Options are measured using valuation models (e.g. Black & Scholes) that are based on quotes published on an active market and/or on listings obtained from independent financial institutions;
- Currency and interest rate derivative instruments are measured by discounting the differential in interest payments.

The fair value of listed loans is the market value at the closing date, while the fair value of unlisted loans is calculated by discounting the contractual flows, one borrowing at a time, at the interest rate the Sanef Group would obtain on similar borrowings at the end of the borrowing period.

The carrying amount of receivables and payables due within one year and certain floating rate receivables and payables is considered to be a reasonable approximation of their fair value, taking into account the short payment and settlement periods used by the Sanef Group.

The valuations generated by these models are adjusted in order to take into account changes in the Sanef Group's credit risk.

## 2.22 *Reporting standards and interpretations not yet in effect*

Certain standards and interpretations formally adopted by the IASB and IFRIC, some of which are in the process of being approved by the European authorities and thus not yet applicable, were not given early application by the Sanef Group in its 2015 consolidated financial statements.

The 2010-2012 and 2012-2014 annual improvement cycles are applicable as of January 1, 2015 and January 1, 2016 respectively and will have a potential impact for the Group which is not known at this time. The amendment to IAS 19 "Employee Benefits" concerning contributions by employees is not applicable to the benefit plans in place at Sanef Group.

### 3 DETAILS OF THE SUMMARY FINANCIAL STATEMENTS

#### 3.1 Scope of consolidation

The Sanef Group consists of the parent company Sanef and the following subsidiaries:

Sociétés	Activité	Méthode de consolidation
Sapn	Toll road concession operator	Full consolidation
SEA 14	Toll road operator	Full consolidation
Bip&Go	Distribution (Telematics)	Full consolidation
eurotoll	Telematics	Full consolidation
eurotoll Central Europe zrt	Distribution	Full consolidation
SE BPNL	Toll road operator	Full consolidation
Léonord Exploitation	Toll road operator	Full consolidation
Léonord	Toll road concession operator	Equity method
Alis	Toll road concession operator	Equity method
Routalis	Toll road operator	Equity method
A'Lienor	Toll road concession operator	Equity method
Sanef Aquitaine	Toll road operator	Full consolidation
Sanef-Saba Parkings France	Parking garage concessions	Equity method

The change in the scope of consolidation between December 31, 2014 and December 31, 2015 is related to the removal of sanef-its (a) from the group and to the addition of the companies allowing the operation since January 2015 of the North Lyon ring road (Public-Private Partnership agreement), namely Léonord SAS, Léonord Exploitation SAS and SE BPNL SAS (b).

#### (a) Removal of the sanef-its group

The Sanef Group distributed all the shares of the sanef-its subgroup to its shareholder HIT SAS in May 2015 at the time of payment of its dividend. The sanef-its group consisted of the following entities, which were consolidated until April 2015:

Sociétés	Activité	Méthode de consolidation
Sanef ITS Operations Ireland	Telematics	Full consolidation up to April 30, 2015
SanToll	Engineering services	Full consolidation up to April 30, 2015
Sanef Tolling	Engineering services	Full consolidation up to April 30, 2015
Trans-Canada Flow Tolling Inc.	Toll road operator	Equity method up to April 30, 2015
Sanef its technologies (France)	Engineering services	Full consolidation up to April 30, 2015
Sanef its technologies America	Engineering services	Full consolidation up to April 30, 2015
Sanef its technologies British Columbia Inc.	Engineering services	Full consolidation up to April 30, 2015
Sanef its technologies Caribe	Engineering services	Full consolidation up to April 30, 2015
Sanef its Tehnologije d.o.o.	Engineering services	Full consolidation up to April 30, 2015
Sanef its technologies Chile	Engineering services	Full consolidation up to April 30, 2015
CS Polska	Engineering services	Full consolidation up to April 30, 2015
Sanef its technologies UK	Engineering services	Full consolidation up to April 30, 2015
Sanef its technologies Ireland	Engineering services	Full consolidation up to April 30, 2015
Sanef Operations Ltd	Telematics and operation of a toll collection system	Full consolidation up to April 30, 2015

Following this transaction, the Abertis Group, majority shareholder of the HIT Group, acquired all of the sanef-its subgroup.

(a) North Lyon ring road (*Boulevard Périphérique Nord de Lyon*)

Since January 1, 2015, HIT has operated the North Lyon ring road (Public-Private Partnership agreement). The companies included in the scope of consolidation in this respect are SE BPNL SAS (wholly-owned by the HIT Group), Léonord Exploitation SAS (85%-owned by the HIT Group) and Léonord SAS (35% stake).

There were no other changes in scope in 2015.

3.1.1 Investments in associates

Summary financial highlights of associates:

<i>2015 (in € thousands)</i>	<b>A'LIENOR</b>	<b>ALIS</b>	<b>ROUTALIS</b>	<b>SSPF</b>	<b>LEONORD</b>
<i>% interest</i>	<i>35,00%</i>	<i>19,67%</i>	<i>30,00%</i>	<i>50,00%</i>	<i>35,00%</i>
<i>In local currency</i>	<i>Euro</i>	<i>Euro</i>	<i>Euro</i>	<i>Euro</i>	<i>Euro</i>
Assets	1,186,455	949,055	3,041	(194)	8,366

Equity	293,028	160,876	973	168	40
Revenue	53,589	69,783	10,815	11,534	13,990
Operating profit (loss)	21,084	38,713	1,542	(147)	0
Profit (loss) before tax	1,326	(7,364)	1,357	(147)	0
Net income (loss)	1,326	6,304	929	(147)	0

<i>2014 (in € thousands)</i>	<b>A'LIENOR</b>	<b>ALIS</b>	<b>ROUTALIS</b>	<b>SSPF</b>	<b>TC Flow</b>
<i>% interest</i>	<i>35,00%</i>	<i>19,67%</i>	<i>30,00%</i>	<i>50,00%</i>	<i>50,00%</i>
<i>In local currency</i>	<i>Euro</i>	<i>Euro</i>	<i>Euro</i>	<i>Euro</i>	<i>Dollar canadien</i>
Assets	1,208,244	936,112	3,194	4,291	4,744
Liabilities	1,031,544	776,678	2,983	5,905	1,436
Equity	176,700	159,434	211	-1,614	3,308
Revenue	48,936	63,263	10,724	3,249	9,614
Operating profit (loss)	18,060	33,634	1,787	17	920
Profit (loss) before tax	(25,864)	62	1,567	18	910
Net income (loss)	(25,864)	62	1,043	18	670

The Sanef Group applies section 29 of IAS 28, which states that: "If an investor's share of losses of an associate equals or exceeds its interest in the associate, the investor discontinues recognizing its share of further losses. The interest in an associate is the carrying amount of the investment in the associate under the equity method together with any long-term interests that, in substance, form part of the investor's net investment in the associate. For example, an item for which settlement is neither planned nor likely to occur in the foreseeable future is, in substance, an extension of the entity's investment in that associate."

The Sanef Group's management believes that repayment of the claim held by Sanef and Sapn against Alis is planned and likely to occur, given the very long term of the concession. It is therefore not necessary to extend the Sanef Group's investment in order to determine Alis' losses.

The Sanef Group therefore discontinued recognizing its share of Alis' losses, which exceed the amount of its €4.2 million investment. Since Alis posted a profit of €6 304 thousand in 2015, the cumulative unrecognized share was €27.7 million at December 31, 2015.

The companies of the Sanef Group also hold claims against Alis in the amount of €56 million (see note 3.24).

### 3.2 Revenue

<i>(in € thousands)</i>	<b>2014</b>	<b>2013</b>
<b>Toll receipts</b>	1,485,227	1,456,866
Subscription sales and telematics services	27,227	23,795
Fees from service area operators	31,407	31,449
Telecommunications fees	6,461	6,400
Engineering services and other	44,870	84,905
<b>Revenue from activities other than toll collection</b>	<i>109,964</i>	<i>146,549</i>
Revenue from construction work performed by third parties	106,999	78,799
<b>Revenue</b>	<b>1,702,190</b>	<b>1,682,214</b>

Sales of subscriptions and telematics services include the billing of operating expenses on subscriptions.

Fees from service station and other service area operators correspond to fees received from the operators of service stations and other retail outlets located in toll road rest and service areas.

Telecommunications fees correspond mainly to the rental of fiber optic cables and masts to telecoms operators.

Engineering services and other includes sales of fuel, the various services provided on the network or in close proximity, the services provided by the non-toll road operator subsidiaries for the four first months of 2015 as Sanef-its Operations Ireland and revenue from sales of services provided by the sanef-its technologies subgroup.

### 3.3 Purchases and external expenses

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
Maintenance of infrastructure	(13,394)	(14,455)
Maintenance and repair	(20,087)	(19,037)
Consumption and expenses related to operations	(30,248)	(46,916)
Other external expenses	(45,627)	(54,704)
Expenses for construction work carried out by third parties	(106,999)	(78,799)
<b>Purchases and external expenses</b>	<b>(216,355)</b>	<b>(213,911)</b>

3.4 Payroll costs

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
Salaries and wages	(128,784)	(116,451)
Payroll taxes	(55,979)	(57,307)
Incentive plan	(4,181)	(6,773)
Employee profit-sharing	(12,490)	(11,850)
Other payroll costs	(2,837)	(2,941)
Cost of stock option plans		
Post-employment and other long-term employee benefits	(4,419)	7,341
<b>Payroll costs</b>	<b>(208,690)</b>	<b>(187,981)</b>

Effective as of January 1, 2013, the tax credit for competitiveness and employment (CICE), which takes the form of a reduction in the amount of tax payable, amounts to a decrease in payroll taxes. The amount of this credit is therefore classified as such in payroll costs.

In addition, the Sanef Group has undertaken initiatives to improve its performance, particularly by opening negotiations with the official staff representatives to put in place a 2016-2018 GEPP (French acronym for employment and career management program). In this connection, the Sanef Group set up an accounting provision at December 31, 2015.

Abertis set up stock option plans in favor of the members of the Sanef Management Committee in 2009 (2009 plan) and 2010 (2010 plan). The 2009 plan expired in April 2014, the 2010 plan expired in April 2015.

Primary assumptions used by the Abertis Group for the valuation of the stock option plans:

	<b>Plan 2010</b>
Number of options as of January 1, 2015	119,641
Options granted – new plan	
New options granted during the period	
Options canceled	
Options exercised	(110,071)
Expired options	(9, 570)
<b>Number of options as of December 31, 2015</b>	<b>-</b>

As the vesting period for the 2009 and 2010 stock option plans has expired, these plans no longer generate an expense for the Sanef Group in 2014 and 2015.

3.5 *Other income and expenses*

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
Gains on disposal of PP&E and intangible assets	899	724
Capitalized production costs	5,766	7,811
Operating grants	173	118
Miscellaneous income	24,129	11,035
<b>Other income</b>	<b>30,967</b>	<b>19,688</b>
Miscellaneous expenses	(5,308)	(177)
Other net additions to provisions	(867)	(331)
<b>Other expenses</b>	<b>(6,175)</b>	<b>(508)</b>

Miscellaneous expenses during 2015 and 2014 include only losses on sales of property, plant and equipment or intangible assets and provisions for litigation in 2015.

Other miscellaneous income in 2015 included the income from Leonord Exploitation from the operating contract on the north ring road around Lyon (see Note 3.1).

3.6 *Taxes other than on income*

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
Regional development tax	(104,964)	(103,862)
Local business tax	(44,375)	(43,069)
Local government royalties	(68,688)	(56,162)
Other taxes	(8,089)	(8,180)
<b>Total other financial expenses</b>	<b>(226,116)</b>	<b>(211,273)</b>

The regional development tax is calculated on the basis of the number of kilometers of toll-paying toll roads in the network that were traveled during the year. This tax is paid on a monthly basis and a final adjustment payment is made at the end of the year. The regional development tax has been levied at the basic rate of €7.32 per thousand kilometers traveled.

The royalty paid to local governments (also known as the annual royalty for occupation of a public domain) is an obligation created by Article 1 of Decree No. 97-606, dated May 31, 1997 and voted as Article R.122-27 of the French Toll Road Code. It is a tax calculated on the basis of the revenues earned by the concessionaire from its toll road concession activity, operated in the public domain, and the number of kilometers of toll roads operated as of December 31 of the preceding year. This tax is paid in July of each year, to cover the period from July 1 to June 30 of the following year. This obligation therefore exists as of July 1 of each year and is recognized in full during the second half of the year.

The change in the line “Taxes other than on income” is therefore very directly related to the change in revenues, essentially from the concession operator companies.

### 3.7 Depreciation, amortization and provisions

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
Amortization of intangible assets	(237,917)	(261,653)
Depreciation of PP&E: concessions (*)	(39,453)	(40,234)
Depreciation of PP&E: other companies	(743)	(2,494)
<b>Total depreciation and amortization</b>	<b>(278,113)</b>	<b>(304,381)</b>
Additional provisions on infrastructures under concession	(41,124)	(41,813)
Net provisions for impairment of other companies' assets	(81)	(21,929)
<b>Depreciation, amortization and provisions</b>	<b>(319,318)</b>	<b>(313,123)</b>

(\*) including Bip & Go in 2015 (see note 3.13).

### 3.8 Financial income and expenses

Analysis of financial income and expenses:

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
Interest expenses on debt stated at amortized cost	(160,134)	(171,467)
<b>Total interest expenses</b>	<b>(160,134)</b>	<b>(171,467)</b>

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
<b>Other financial expenses</b>		
Interest expenses on interest rate derivatives		(289)
Discounting expense	(14,883)	(17,053)
Cash equalization payments in 2015	(58,917)	
Miscellaneous financial expenses	(1 981)	(1,750)
<b>Total financial expenses</b>	<b>(75,781)</b>	<b>(19,092)</b>

Other financial expenses consist largely of repurchase premiums (equalization payments) on CNA loans maturing in 2018 and to a degree those maturing in 2017 (see Note 3.20) in the amount of €58,917 thousand.

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
<b>Financial income</b>		
Income from equity investments	114	184
Income from other receivables and marketable securities	16,521	14,086
Gain on sale of Sanef ITS	21,190	
Miscellaneous financial income	1,583	61
<b>Total financial income</b>	<b>39,408</b>	<b>14,331</b>

Financial income at December 31,2015 mainly included the consolidated income from the removal of the sanef-its subgroup (see Note 3.1) for an amount of €21.19 million.

In 2015, financial income includes amortization of €6,417,000 (€7,181,000 in 2014) related to the sale of the Sanef and Sapn hedge swaps (see note 3.14.3).

### 3.9 *Income taxes*

Tax proof for fiscal years 2014 and 2015:

<i>(in € thousands)</i>	<b>2015</b>	<b>2014</b>
Net income (net of non-controlling interests)	344,329	329,369
Income tax	216,720	206,015
To be excluded: Share in net income of associates	1,051	8,494
Profit before tax	559,998	543,878
Theoretical tax expense (38.00%)	(212,799)	(206,673)
Non deductible expenses - permanent differences	(4,900)	(1,391)
Difference observed in rates on deferred taxes recognized at 34.43%	(1,577)	(345)
Tax credits, limitation of deductibility of net financial expenses , temporary differences and other	2,556	813
<b>Charge d'impôt effective</b>	<b>(216,720)</b>	<b>(206,015)</b>

Analysis of deferred taxes by key statement of financial position lines:

<i>(in € thousands)</i>	December 31, 2015		December 31, 2014 (*)	
	Assiette	Impôts	Assiette	Impôts
Property, plant and equipment and intangible assets	(18,871)	6 497	(84,104)	28,957
Provisions for risks and charges	297,630	(102 474)	281,049	(96,765)
Debt, derivatives and other	(11,548)	3 976	1,368	(471)
<b>TOTAL</b>	<b>267,211</b>	<b>(92 001)</b>	<b>198,313</b>	<b>(68,279)</b>

(\*) Figures have been restated to reflect the change in accounting policy presented in note 2.3

As was the case at December 31, 2014, no tax assets were recorded at December 31, 2015.

### 3.10 Earnings per share and dividends

Basic earnings per share are calculated by dividing distributable net income attributable to owners of the parent for the period by the weighted average number of shares outstanding during the period.

As the Group has no dilutive instruments, diluted earnings per share are identical to basic earnings per share.

### 3.11 Goodwill

Following the removal of the sanef-its group (see note 3.1), there is no more goodwill as of December 31, 2015 (€6,716,000 as of December 31, 2014).

### 3.12 Intangible assets

Gross amount <i>(in € thousands)</i>	January 1, 2015	Additions	Disposals	Changes in consolidation scope and other (*)	December 31, 2015

- Cardus			16
- Emetteur Groupe Sanef (EGS)	100	1	1
<b>Total non-consolidated affiliates</b>		<b>1 487</b>	<b>1 504</b>

Non-consolidated affiliates classified as financial assets held for sale include entities controlled by HIT, but not consolidated. If these entities were consolidated, the impact on the consolidated financial statements would not be material.

3.14.3 *Instruments dérivés*

Derivatives include:

- €0 thousand in caps that do not qualify for hedge accounting recognized in assets (€1 thousand recognized in assets as of December 31, 2014),

In 2015, the Sanef Group refinanced a portion of its debt carried by the CNA (Caisse Nationale des Autoroutes), especially the debt maturing in 2018 and a portion of the 2017s from CNA through an operation known as "Liability Management". This operation and all its accounting consequences are described in note 3.20.

The interest rate swaps considered fair value hedging transactions were sold during H1 2013 for a net amount of €33,495,000. This cash equalization payment received is spread over the residual life of the hedged borrowings, i.e. until no later than January 2017. During 2015, the amount of financial income recorded was €6,416,000 (€7,181,000 in 2014). The unamortized amount as of December 31, 2015 was €6,012,000 (€12,429,000 in 2014) and is shown on the consolidated statement of financial position as deferred income.

3.14.4 *Information on loans and receivables in non-current financial assets*

Building-related loans for a discounted amount of €1,451 thousand are included in the “Loans” category as of December 31, 2015 (€1,394 thousand as of December 31, 2014). These interest-free loans, which were granted to employees as part of the employer’s legal obligation to contribute to the construction effort, are to be repaid over a period of 20 years. The interest rate used to discount these loans (4%) is also used to calculate the corresponding financial income recognized in the statement of comprehensive income.

3.15 *Trade and other accounts receivable*

<i>(in € thousands)</i>	<b>December 31, 2015</b>	<b>December 31, 2014 (*)</b>
Prepayments and down payments on orders	837	385
Receivables from toll activities	136,282	112,833
Receivables from other activities	9,447	26,354
Doubtful accounts	8,771	15,728
Unbilled receivables	69,395	88,826
Other miscellaneous receivables	21,829	
Provisions for impairment of trade receivables	(8,528)	(5,981)
<b>Trade and other financial receivables (1)</b>	<b>238,035</b>	<b>238,145</b>
Miscellaneous non-financial receivables	75,563	70,034
<b>Total trade and other accounts receivable</b>	<b>313,598</b>	<b>308,179</b>

(1) Financial assets classified as loans and receivables.

(\*) Figures have been restated to reflect the change in accounting policy presented in note 2.3

Trade and other accounts receivable are classified as “loans and receivables” under IAS 39 and are stated on the statement of financial position at face value, less any impairment.

Given their very short maturities, this valuation method is very close to both the amortized cost using the effective interest rate method and to the fair value.

Other miscellaneous receivables of €21,829 thousand at December 31, 2015 include other miscellaneous debtors, including TIS notes to Sanef and Sapn for €10,103 thousand.

Non-financial receivables include payroll and tax receivables, excluding any current income tax receivables.

3.16 *Cash and cash equivalents*

The accounting treatment applied by the group for cash equivalents is the same as that applied to financial assets at fair value through profit or loss. Cash and cash equivalents are carried at fair value.

Analysis of cash and cash equivalents:

Consolidated financial statements Sanef Group- December 31, 2015

<i>(in € thousands)</i>	December 31,	December 31,
	2015	2014
Cash equivalents: money-market mutual funds	83,891	120,437
Cash in bank	59,612	74,339
<b>Total cash and cash equivalents</b>	<b>143,503</b>	<b>194,776</b>

Sanef's policy is to invest excess cash in money-market mutual funds with financial institutions rated A+ or higher by S&P.

3.17 *Capital stock and additional paid-in capital*

As of December 31, 2015 and December 31, 2014, Sanef had capital stock of €53,090,456, divided into 76,615,132 shares with a par value of €0.69295 per share. All shares are entitled to receive dividend payments. Sanef had additional paid-in capital (the amount paid by shareholders in excess of the par value of their shares) of €654,413,000 at December 31, 2015 (unchanged from December 31, 2014).

3.18 *Provisions*

As of December 31, 2015:

All provisions pertaining to the toll road concessions (provisions for future renewal of toll road surfaces and maintenance of engineering structures) are classified as non-current provisions. The CVE provision is broken down into its 2016 short term portion and its long-term portion.

### 3.19 Long-term employee benefits

Long-term employee benefits include post-employment defined benefit plans (termination benefits, retirees' supplemental health insurance, supplemental retirement plan) and other types of benefits (CATS early retirement program, long service awards).

Analysis of total long-term employee benefits on the statement of financial position:

	<u>December 31, 2015</u>	<u>December 31, 2014</u>
Post-employment defined benefit plans	40 128	40 356
Other benefits	17 878	1 871
<b>Total</b>	<b>58 006</b>	<b>42 227</b>

3.19.1 Post-employment defined benefit plans

Analysis of defined benefit plans:

	<u>December 31, 2015</u>	<u>December 31, 2014</u>
Obligations and rights at the end of the period	41,745	41,894
Fair value of plan assets	<u>(1,617)</u>	<u>(1,538)</u>
Total net obligation	40,128	40,356
Net amount on statement of financial position	40,128	40,356

Analysis of main assumptions used to calculate the above amounts:

	December 31, 2015	December 31, 2014
Discount rate	2.00%	1.75%
Salary increase rate	2.75%	2.75%

The sensitivity of the obligations to changes in these two main assumptions at December 31, 2015 is as follows:

<i>(in € thousands)</i>	December 31, 2015			
	Discount rate		Salary increase rate	
	Hausse de 50 bp : 2.5%	Baisse de 50 bp : 1.5%	Hausse de 50 bp : 3.25%	Baisse de 50 bp : 2.25%
<b>Total obligations and rights</b>	<b>39,648</b>	<b>44,038</b>	<b>43,911</b>	<b>39,725</b>

At December 31, 2014, the sensitivity of these two assumptions was as follows:

<i>(in € thousands)</i>	December 31, 2014			
	Discount rate		Salary increase rate	
	Hausse de 50 bp : 2.25%	Baisse de 50 bp : 1.25%	Hausse de 50 bp : 3.25%	Baisse de 50 bp : 2.25%
<b>Total obligations and rights</b>	<b>39,622</b>	<b>44,263</b>	<b>44,289</b>	<b>39,715</b>

Defined benefit obligations are funded entirely by the Group with the exception of the retirement plan for key executives, which is partially funded.

Analysis of plans by funding <i>(in € thousands)</i>	December 31, 2015	December 31, 2014
Totally or partially-funded liabilities	1,514	2,236
Non-funded liabilities	38,614	38,120
<b>TOTAL</b>	<b>40,128</b>	<b>40,356</b>

Consolidated financial statements Sanef Group- December 31, 2015

The following tables summarize the Group's obligations as of December 31, 2015 and December 31, 2014, and the fair value of the funded plan assets, for each type of obligation (pensions, termination benefits, retirement plans of the key executives) and supplemental health benefits for the retirees of Sapn.

Employee benefits (in € thousands)	Termination benefits		Supplemental retirement plan		Supplemental health benefits		TOTAL	
	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014
Obligations and rights at beginning of year	33,414	26,998	3,773	3,463	4,707	14,303	41,894	44,764
New commitments and modifications	2,835		(1,310)			(10,307)	1,525	(10,307)
Current service costs	1,889	1,568	198	378	322	636	2,409	2,582
Interest expense	561	862	66	113	82	304	709	1,279

Benefits paid	(1,919)	(1,771)			(131)	(191)	(2,050)	(1,962)
Change in scope	(659)						(659)	
<b>Obligations and rights at end of year</b>	<b>34,438</b>	<b>33,414</b>	<b>3,131</b>	<b>3,773</b>	<b>4,176</b>	<b>4,707</b>	<b>41,745</b>	<b>41,894</b>

The new commitments and amendments to the pension plan refer to the provision for assistance measures in the 2016-2018 GEPP (see Note 3.4).

Fair value of plan assets (in € thousands)	Termination benefits		Supplemental retirement plan		Supplemental health benefits		TOTAL	
	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014
Fair value of plan assets at beginning of year			1,538	1,491			1,538	1,491
Expected return on plan assets			27	49			27	49
Actuarial gains (losses)			52	(2)			52	(2)
Employer contributions								
Benefits paid								
<b>Fair value of plan assets at end of year</b>			<b>1,617</b>	<b>1,538</b>			<b>1,617</b>	<b>1,538</b>

Actuarial (gains) losses recognized in reserves

(in € thousands)	Termination benefits		Supplemental retirement plan		Supplemental health benefits		TOTAL	
	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014	Dec 31 2015	Dec 31 2014
Actuarial (gains) losses	(1,683)	5,757	404	(179)	(804)	(38)	(2,083)	5,540
<b>Actuarial (gains) losses recognized in reserves</b>	<b>(1,683)</b>	<b>5,757</b>	<b>404</b>	<b>(179)</b>	<b>(804)</b>	<b>(38)</b>	<b>(2,083)</b>	<b>5,540</b>

The total actuarial gains attributable to defined benefit post-employment obligations amounted to €2,083 thousand in 2015 (€5,540 thousand in actuarial losses in 2014). These actuarial gains included €727 thousand in gains related entirely to changes in financial assumptions (discount rate increased from 1.75% to 2.00%) compared with a losses of €6,917 thousand in 2014 and €1,356 thousand in experience-related gains (€1,377 thousand in experience-related gains in 2014).

The actuarial gains of €2,083 thousand (actuarial losses of €5,540 thousand in 2014) break down as follows based on their origin:

<i>(in € thousands)</i>	2015	2014
<b>Actuarial (gains) losses generated during the period</b>	<b>(2,083)</b>	<b>5,540</b>
- from changes in financial actuarial assumptions	(727)	6,917
- from changes in demographic actuarial assumptions	0	0
- from experience-related actuarial changes on plan liabilities	(1,356)	(1,379)
- from experience-related actuarial changes on plan assets		2

### 3.19.2 Other benefits

Other benefits include the CATS early retirement program described below, long service awards and other benefits.

<i>(in € thousands)</i>	December 31, 2015				December 31, 2014		
	CATS	Long service awards	Others	TOTAL	CATS	Long service awards	TOTAL
As of January 1	682	1,189		1,871	1,508	1,009	2,517
Change of scope							
Addition			16,556	16,556

Discounting	6			6	21		21
Actuarial (gains) losses	514	189		703	222	369	591
<b>At the end of the period</b>	<b>158</b>	<b>1,164</b>	<b>16,556</b>	<b>17,878</b>	<b>682</b>	<b>1,189</b>	<b>1,871</b>

CATS (*Cessation anticipée de certains travailleurs salariés*), an early retirement program, allows salaried employees who reach 57 years of age between the years 2008 and 2016 and who have worked a certain number of years for the company as laborers to qualify for early-retirement benefits that are partially funded by the French government.

Provisions for the contributions of Sanef and Sapn have been set aside as termination benefits and have been recognized since the program was implemented in December 31, 2007.

At December 31, 2015 and December 31, 2014, all the remaining eligible employees were included in the provision. Enrollment of employees eligible for the CATS scheme has now ended.

## 3.20 Financial liabilities by accounting category

Current and non-current financial liabilities:

<i>(in € thousands)</i>	December 31, 2015				
	Liabilities at amortized cost	Liabilities held for trading	Derivatives qualified as hedging	Carrying amount	Fair value
Borrowings: current and non-current portions	3,028,374			3,028,374	3,529,153
Central government advances	17,318			17,318	17,318
Deposits and guarantees received	24,784			24,784	24,784
Accrued interest not due	33,657			33,657	33,657
<b>Total financial liabilities excluding trade accounts payable</b>	<b>3,104,133</b>	<b>0</b>	<b>0</b>	<b>3,104,133</b>	<b>3,604,912</b>
Total trade and other financial payables (see note 3.21)	202,957			202,957	202,957
<b>Total financial liabilities as per IAS 39</b>	<b>3,307,090</b>	<b>0</b>	<b>0</b>	<b>3,307,090</b>	<b>3,807,869</b>

<i>(in € thousands)</i>	December 31, 2014				
	Liabilities at amortized cost	Liabilities at amortized cost	Derivatives qualified as hedging	Carrying amount	Fair value
Borrowings: current and non-current portions	3,264,265			3,264,265	3,913,371
Central government advances	17,318			17,318	17,318
Deposits and guarantees received	24,843			24,843	24,843
Bank overdrafts	2,545			2,545	2,545
Accrued interest not due	60,834			60,834	60,834
<b>Total financial liabilities excluding trade accounts payable</b>	<b>3,369,805</b>	<b>0</b>	<b>0</b>	<b>3,369,805</b>	<b>4,018,911</b>
Total trade and other financial payables (see note 3.21)	184,534			184,534	184,534
<b>Total financial liabilities as per IAS 39</b>	<b>3,554,339</b>	<b>0</b>	<b>0</b>	<b>3,554,339</b>	<b>4,203,445</b>

Deposits and guarantees received correspond mainly to payments received from toll road subscribers. These payments are reimbursed in the event of the cancellation of the subscription, after the card or badge is returned. They are considered to be demand deposits and therefore are not discounted.

The fair value of all financial liabilities other than borrowings is equal to their carrying amount.

The Sanef Group through its Sanef and Sapn subsidiaries, refinanced a portion of its debt carried by the CNA (Caisse Nationale des Autoroutes) during the last quarter of FY2015. This transaction reduced short-term financing needs (especially the CNA maturing in 2018) at a lower cost and diversified the Group's sources of financing.

The Group thus repurchased the 2018 maturities and a portion of the 2017s from CNA for a total of about €581 million and issued the public a bond of €600 million maturing in 10 years (March 2026) with a 1.875% coupon. This repurchase was accomplished by paying a €59 million premium (the "repurchase premium") to CNA, fully recognized in 2015 expenses.

### 3.21 Trade and other accounts payable

<i>(in € thousands)</i>	<b>December 31, 2015</b>	<b>December 31, 2014 (*)</b>
Advances and down payments received on orders	34,169	23,532
Trade accounts payable	109,418	109,999
Due to suppliers of non-current assets	58,854	50,606
Other financial payables	516	397
<b>Total trade and other financial payables (1)</b>	<b>202,957</b>	<b>184,534</b>
Taxes and payroll costs	145,701	153,721
Prepaid income	22,594	31,638
<b>Total non-financial payables</b>	<b>168,295</b>	<b>185,359</b>
<b>Total trade and other accounts payable</b>	<b>371,252</b>	<b>369,893</b>

(1) Financial liabilities stated at amortized cost

As trade and other accounts payable are very short-term, their carrying amount approximates fair value.

### 3.22 Contingent liabilities

#### Claims and litigation

In the normal course of their business, Group companies are involved in a certain number of claims and legal proceedings. As of December 31, 2015, the Sanef Group considers that no claims or litigation relating to its business are in progress that would be likely to have a material adverse effect on its results of operations or financial position (other than those risks for which provisions have been recognized in the financial statements).

#### “1% countryside development” contribution (Engagement 1% paysage)

Under the French government’s countryside development policy, for toll road sections to be constructed or under construction, the Group contributes to the expenditure required to ensure that the toll road blends harmoniously into the local landscape, provided that the local authorities concerned contribute an equivalent amount.

<i>(in € thousands)</i>	December 31, 2015	December 31, 2014
“1% countryside development” contribution	162	299

“1% countryside development” expenditure is made under the government policy described in a note dated December 12, 1995 on the environment and the economic development of regions served by the toll roads and major trunk roads. This expenditure is defined as follows in the concession agreement specifications: “For toll roads that are due to be built or are already under construction, the concession operator shall contribute to the expenditure needed to ensure that the toll road blends harmoniously into the landscape, in the interests of both local inhabitants and toll road users. Such expenditure shall include maintenance costs and the cost of any necessary landscaping work, and may be incurred beyond the toll road’s boundaries. The concession operator’s contribution shall not exceed 0.5% of the cost of the engineering structures, provided that the local authorities concerned contribute an equivalent amount, on the basis prescribed by the French government” (*Article 12.10*).

However, the local authorities’ contribution may be claimed only if a government decree is issued listing the toll road work. When the concession operator applies for investment grants based on this list, the work concerned becomes eligible for the “1% countryside development” scheme and the company becomes committed to paying a contribution.

#### Guarantees given:

As a result of the removal of the sanef-its subgroup in May 2015 (see Note 3.1), the only guarantees given by the Sanef Group are as follows:

Sanef issued a bank guarantee for operation of the A65 highway for A’Lienor in the amount of €1,048 thousand at December 31, 2015 (€1,000 thousand as at December 31, 2014), as well as additional parent company guarantees totaling €2.363 million (the same as December 31, 2014).

Sanef provided two guarantees totaling €5,000 thousand in favor of Eurotoll in connection with contracts entered into with Ecotrans, the Italian toll road network (the same as December 31, 2014).

In 2015 Eurotoll increased the amount of two bank guarantees granted in 2014 to Ages for a total of €2,700 thousand (€1,800 thousand at December 31, 2014.)

Sanef issued two bank guarantees in connection with the North Lyon ring road operating agreement for a total amount of €7,990 thousand at December 31, 2015, without changes compared to December 31, 2014.

Guarantees totaled €21,038 thousand at December 31, 2015 (€100,359 thousand as of December 31, 2014).

#### Guarantees received

Sanef Group companies had received bonds and guarantees on contracts for a total of €12,875 thousand as of December 31, 2015 (€24,472 thousand as of December 31, 2014).

### 3.23 *Management of financial risks and derivative instruments*

#### 3.23.1 *Market risks*

Of the various types of market risk (interest rate risk, currency risk, and market risk on listed equities), Sanef Group is primarily exposed to interest rate risk.

The Group would be exposed to fair value risk in the event that the portion of Sanef Group's borrowings at fixed rates was bought on the market, while floating-rate borrowings could impact future financial results.

The loan interest rate structure is as follows:

<i>(in € thousands)</i>	<b>December 31, 2015</b>	<b>December 31, 2014</b>
Fixed or adjustable rate	2,869,038	3,082,233
Floating rate	159,336	182,032
<b>Total</b>	<b>3,028,374</b>	<b>3,264,265</b>

Following the sale in H1 2013 of the interest-rate swaps used to convert a portion of Sanef's and Sapn's fixed-rate debt to variable-rate debt, as of December 31, 2014 and December 31, 2013, there were no longer any such instruments.

All things considered, Sanef has only a limited risk of its financial expenses increasing should interest rates go up as the Group has contracted caps to allow it to limit the impact of any rise in interest rates. Caps were not eligible for hedge accounting and changes of value impact directly the income statement.

The fair value of Sanef's debt is sensitive to changes in interest rates insofar as a portion of this debt is at a fixed rate. A decrease in interest rates increases fair value, and an increase in interest rates decreases fair value. The variance between the fair value of the portion of the debt that is at a fixed rate and its carrying amount would only be taken to profit or loss if Sanef decided to make advance repayments of this debt, in order to respond to market opportunities.

Analysis of the value of Sanef's caps as of December 31, 2015:

<i>(in € thousands)</i> Expiration	<b>Market value as of December 31, 2015</b>	<b>Interest rate</b>	<b>Nominal value value</b>
Mid 2016	1	Cap 0.50% E3M à 0.08% flat	25,000
<b>TOTAL</b>	<b>1</b>		<b>25,000</b>

At December 31, 2014:

<i>(in € thousands)</i> Echéance	<b>Market value as of December 31, 2014</b>	<b>Interest rate</b>	<b>Nominal value value</b>
Mid 2015	0	Cap 0.75% E3M à 0.1775% flat	25,000
Mid 2015	0	Cap 0.75% E3M à 0.1775% flat	25,000
Mid 2015	0	Cap 0.40% E3M à 0.09% flat	25,000
Mid 2016	1	Cap 0.50% E3M à 0.08% flat	25,000
<b>TOTAL</b>	<b>1</b>		<b>100,000</b>

Sensitivity of income and equity to changes in interest rates:

The sensitivity of interest flows for the floating rate instruments was calculated by taking into account all variable flows on non-derivative and derivative instruments. The analysis was prepared assuming that the amount of debt and financial instruments on the statement of financial position as of December 31 of both 2015 and 2014 remain constant over one year.

<i>(in € thousands)</i>	2015				2014			
	Earnings	Earnings	Equity	Equity	Earnings	Earnings	Equity	Equity
	50 bp increase	50 bp decrease	50 bp increase	50 bp decrease	50 bp increase	50 bp decrease	50 bp increase	50 bp decrease
Floating rate debt	(805)	805	-	-	(910)	910	-	-
Interest rate hedges (swaps and some collars)	-	-	-	-	-	-	-	-
Interest rate derivatives (caps and some collars) not eligible for hedge accounting	-	-	-	-	52	(1)	-	-

A 50 basis point change in interest rates at the end of the reporting period would have resulted in an increase (decrease) in equity and earnings in the amounts indicated above. For the purposes of this analysis, all other variables are presumed to remain constant.

In addition, the Sanef Group has rather little exposure to currency risk on transactions stemming from its normal course of business.

### 3.23.2 Credit risk

Credit risk represents the risk of financial loss to HIT should a customer or counterparty to a financial instrument default on its contractual obligations.

The carrying amount of its financial assets, shown below, indicates maximum exposure to credit risk:

<i>(in € thousands)</i>	Note	December 31, 2015	December 31, 2014
Loans to associates	3.14	55,649	75,074
Loans	3.14	1,958	1,730
Deposits and guarantees	3.14	562	639
Trade and other financial receivables	3.15	238,035	238,145
Current financial assets	3.14	2,961	17,622
Cash and cash equivalents	3.16	<u>143,503</u>	<u>194,776</u>
	<b>Total</b>	<b>442,668</b>	<b>527,986</b>

As of December 31, 2015, the Sanef Group had trade and other accounts receivable totaling €238 million (€238 million as of December 31, 2014) and cash of around €144 million (€195 million as of December 31, 2014). These amounts indicate a very low exposure to credit risk, especially in view of the quality of the Group's customers and counterparties and the fact that all operating receivables are paid in cash or settled very quickly.

The Sanef Group invests its surplus cash and enters into interest rate swaps and other derivatives only with leading financial institutions.

### 3.23.3 Liquidity risk

Liquidity risk is defined as the risk of a company not being able to honor payments on its borrowings or other commitments.

With the exception of capital expenditures, financing needs are not sufficiently material to make any borrowing difficulties likely.

Sanef's primary financial debt (loans from CNA and BNP/Dexia) is subject to covenants on the following two ratios:

- net debt/EBITDA
- EBITDA/net financial expenses.

As of December 31, 2015 and December 31, 2014 the Sanef Group was in compliance with both covenants.

Analysis of borrowings by maturity:

Year	< 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	> 5 years	Total

As Sanef Group's financial debt all falls due prior to the expiration of its concession contract, and thanks to the predictability of its operating and investment cash flows, the Group will be able to obtain refinancing. At present, the Group cannot foresee any problems with its ability to obtain funding
